KEYNOTE SPEAKER, TODD HUSTON: 9:00AM - 10:00AM

When his legs got caught in the propeller of a boat at age 14, his life was almost ended. He died twice, but was revived both times. He battled to keep his legs with numerous surgeries, but eventually had one leg amputated. Then, Todd did the unimaginable: he set a world record by climbing the highest elevations in all 50 states. Today, he is the only disabled athlete to hold a world record in an able-bodied sport.

Life is full of challenges. When faced with such difficulties in life, each person has to decide how they will embrace and overcome their own challenges, but it is important for people to remember that they are not alone.
